

Transverse Washer

Effective Wet & Dry Washing Configured to Your Exact Operation

The Transverse Washer removes dirt and debris using a range of roll types, speeds, spray bars and retention flaps, resulting in thorough and efficient scrubbing in a short distance. Products are spread across the bed in a single layer quickly, providing more effective dry debris removal and wet scrubbing of fine particles. Customize the Transverse Washer for your specific application with a variety of options and accessories.

- Clean product efficiently and effectively – from dirt clods to fine particles
- Configure roll types, number of rolls, speed and optional spray bars and retention flaps to your exact operation
- Available for dry debris removal and wet scrubbing applications
- Optional elevating frame allows you to capture, weigh and sell back debris
- Sanitary design with open bed and easily accessible rolls allows for quick and thorough cleaning

Common Food Applications

Potatoes

Beets

Carrots

Cucumbers
