

Hex Roll Spreader

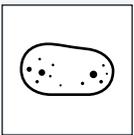

Evenly Spread Product for Effective Presentation

The Hex Spreader evenly spreads product across the full width of the discharge while removing undersized product, debris and excess water. Spreading into single layer gives you the best presentation of product for optical sorting and sizing. The top grill cover provides clear visibility and full wash through capability – improving sanitation and reducing downtime.

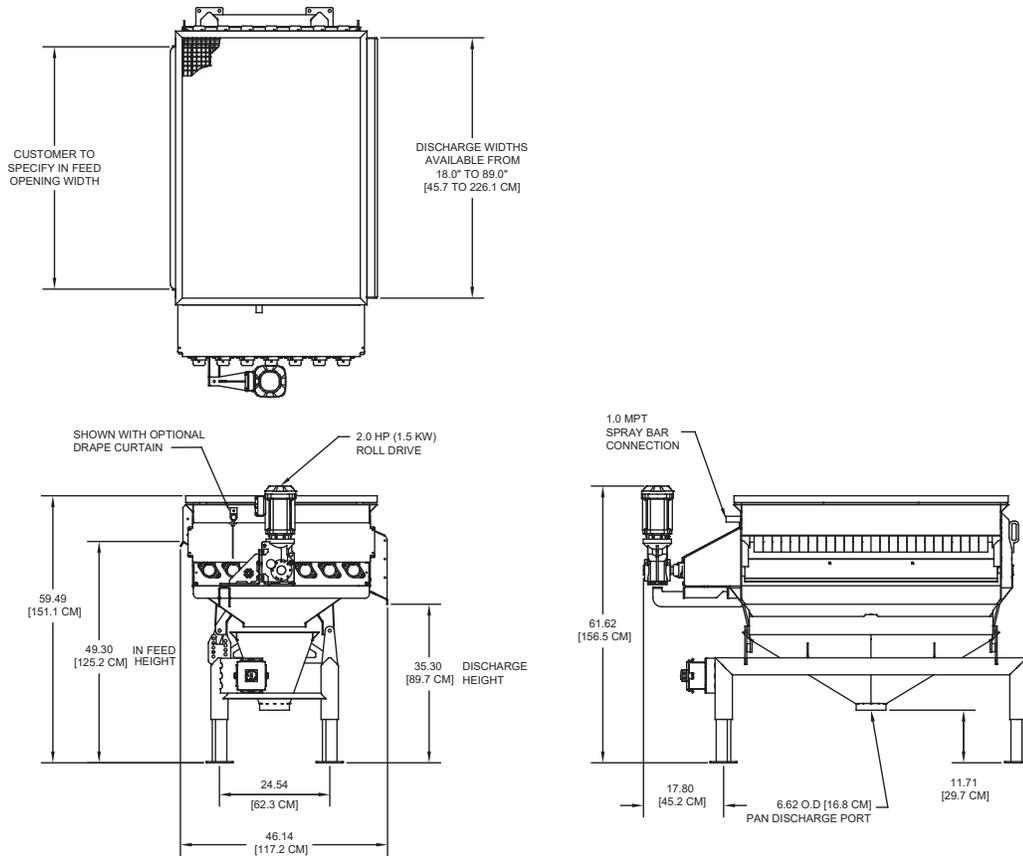

- Seven stainless steel, hexagon-shaped quick change rolls spread product for further optical sorting and sizing
- Optimized performance in a compact footprint
- Simultaneous rolling creates a perfect presentation
- Adjustable slip legs and infeed opening width, and tilting roller bed allow simple integration with your production line
- Sanitary design with complete wash through allows for quick and thorough cleaning

Common Food Applications

Potatoes

Hex Roll Spreader

Specifications
