

Inspection Conveyor

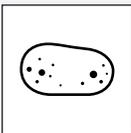

Accurate Inspections with a Heavy-Duty Conveyor Customized for You

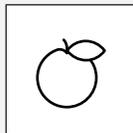

The Inspection Conveyor efficiently feeds heavy-duty product flow into your inspection area – improving production rates and inspection performance. Customize the conveyor to your exact needs with available white and composite modular belts, PVC food-grade rollers and a variety of accessories. Its strong, stainless steel construction and sanitary design ensure long-life and fast, thorough cleaning.

- Convey up to 3600 pounds per hour, per six inches of lane width
- PVC food grade rollers, white or composite modular belts available
- Configure flat belts, rollers, lane dividers, collection areas and trim stations to your exact operation
- Modular, configurable design allows you to change and move components in seconds
- Sanitary design with tool-free removable parts allows for quick and thorough cleaning
