

Orienting Roll

Consistent, Singular Feeding to Your Slicers and Cutters

The Orienting Roll transfers product into a single line in preparation for cutting and slicing – drastically improving performance and efficiency. Its two spiral-wrapped rollers gently transfer and align product from the hopper to your slicer in an even flow. The Orienting Roll comes in continuous and batch models – ensuring you get a solution fit for your operation. Its open stainless steel construction and sanitary design ensure long-life and fast, thorough cleaning

- Standard hourly flow rates up to 13,000 pounds (5900 kg) per hour for whole, peeled potatoes
- Arrange product in a single line for maximum cutting and slicing performance and efficiency
- Sanitary design with rounded and sloped surfaces eliminates contamination and allows for quick and thorough cleaning

Common Food Applications

Potatoes

Beets

Cucumbers

Onions

Turnips

Orienting Roll

Specifications
