

Peeler/ Scrubber/ Washer – 2420

Wash and Peel Products Efficiently
for Smaller Capacities

Vanmark's Peeler/Scrubber/Washers integrate product washing and peeling into one machine effectively and efficiently. The 2420 model offers high quality performance and durability, with a more moderate capacity. Product is tumbled through a configurable combination of roller types, spray bars and other optional features, speed and settings – ensuring thorough and efficient cleaning and/or peeling. Its EasyFlow™ Gate has a screened chute that allows better load visibility and sanitation, while maintaining proper load control.

- Clean and peel product efficiently and effectively in one machine
- Flow rates up to 6000 pounds per hour of storage potato capacity
- Configure roll types, speed and discharge gates to your exact operation. Further specialize with options including small product package for products under 1" diameter
- Included inverter control allows for fast start up – just plug in and drive
- EasyFlow™ Gate with screened chute and manual adjustable lever for easy operation and better load visibility
- Sanitary design with quick roll change system and easy access peel chamber allows for quick and thorough cleaning

Common Food Applications

Potatoes

Beets

Carrots

Onions

Peeler/Scrubber/Washer – 2420
