

Peeler/ Scrubber/ Washer – 2600

Simple, Yet Durable Wash and Peel for High Capacity, Non-Continuous Duty Cycles

Vanmark's Peeler/Scrubber/Washers integrate product washing and peeling into one machine effectively and efficiently. The 2600 model is designed for operations that need high capacity in limited duty cycles. Product is tumbled through a configurable combination of six or eight rollers, roller types, speed and optional features – ensuring thorough and efficient cleaning and/or peeling. Settings are quickly and easily changed with a simple manual control. Its EasyFlow™ Gate has a screened chute that allows better load visibility and sanitation, while maintaining proper load control.

- Clean and peel product efficiently and effectively in one machine
- Flow rates up to 10,000 pounds per hour of storage potato capacity
- Configure roll types, number of rolls, speed and discharge gates to your exact operation
- Further specialize with options including tumbling unit that continuously moves odd-shaped products
- EasyFlow™ Gate with screened chute for better load visibility
- Sanitary design with quick roll change system and easy access peel chamber allows for quick and thorough cleaning

Common Food Applications

Potatoes

Beets

Carrots

Onions

Peeler/Scrubber/Washer – 2600
