

Peeler/ Scrubber/ Washer – 2940

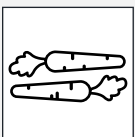

Wash and Peel Small Diameter Products
Efficiently and Fast

Vanmark's Peeler/Scrubber/Washers integrate product washing and peeling into one machine effectively and efficiently. The 2940 model is available with 11 or 14 rolls and is specifically designed for products with diameters of .25-1.5". Product is tumbled through a configurable combination of thin 3" diameter rollers, speed and settings – ensuring thorough cleaning and/or peeling. Spray bars and optional reversing roll quickly remove peel waste and debris to increase efficiency. The exit gate is easily adjusted to varying product heights and product flow.

- Clean and peel small diameter product efficiently and effectively in one machine
- Configure roll types, number of rolls, speed and discharge gates to your exact operation
- Further specialize with options including: reversing roll, spray bars, drain pans, discharge gate and tumbling unit that continuously moves odd-shaped products
- Sanitary design with quick roll change system, easy access peel chamber and stainless steel drive case allows for quick and thorough cleaning
