

Lamina[®] Distributor

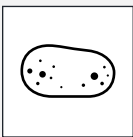

Accurate, Gentle Flow to Hydrocutter
Using Specialized Design

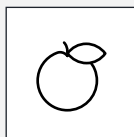

The Lamina[®] Distributor divides product into two outlets as it flows to the Hydrocutting System, giving you flexibility to switch flows or run two Hydrocutters at the same time. Its unique design is driven by Computational Fluid Dynamics (CFD) software to gently direct water and product in the most compact footprint possible with minimal pressure drop. Its user-friendly, low maintenance operation and sanitary design give you years of trouble-free usage .

- Divides product and water flow into two outlets to Hydrocutters or other systems
- Easily switch to one or both outlets at the same time
- CFD-driven design for optimal performance
- Available in multiple configurations to fit a range of products
- Sanitary design with removable arms and no moving wear parts allows for quick and thorough cleaning

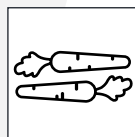

Common Food Applications

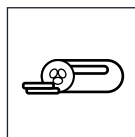

Potatoes

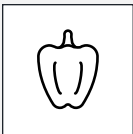

Apples

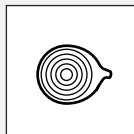

Carrots

Cucumbers

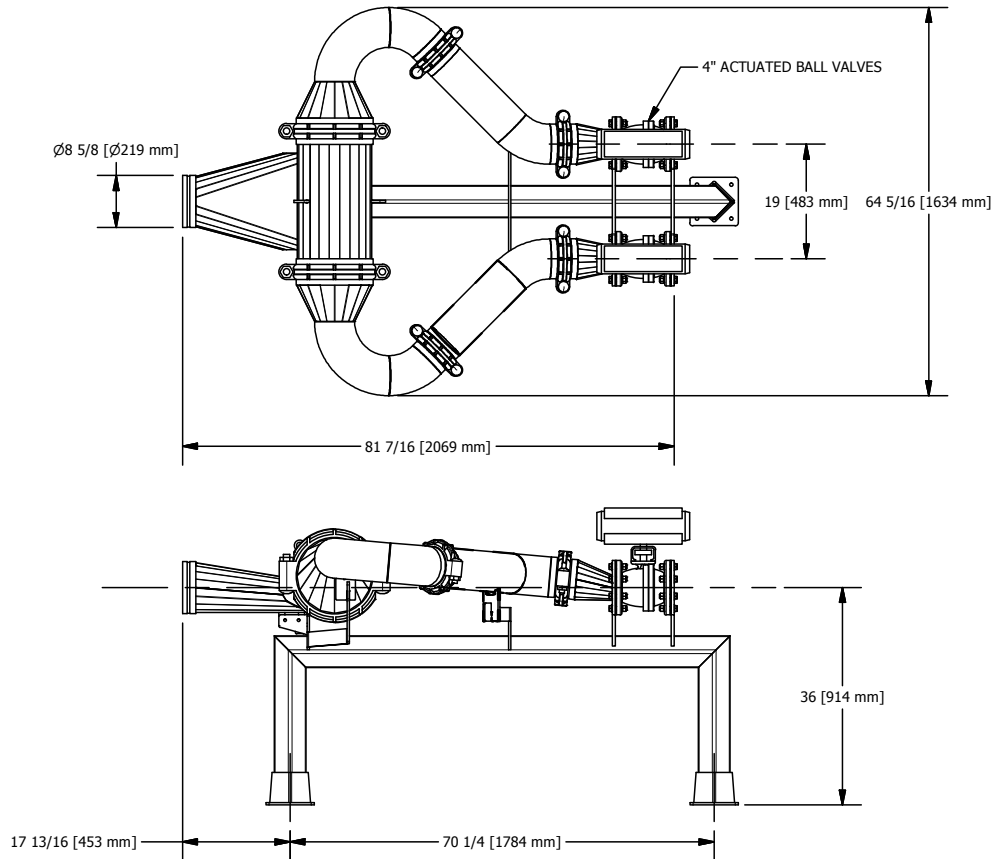

Peppers

Onions
